The group was trying to take stock of itself at this time, and came up with some surprisingly strong, lean numbers (Michael Pinder's Mellotron is surprisingly restrained until the final number, "The Balance"), which also embraced politics for the first time ("Question" seemed to display the dislocation that a lot of younger listeners were feeling during Vietnam). The surprisingly jagged opening track, "Question," recorded several months earlier, became a popular concert number as well as a ...

Although balance is a well-known and arguably important journalistic norm, how should journalists adhere to this norm when the bulk of scientific evidence clearly favors one (presumably accurate) perspective? Should balance be defined in terms of the quantity of information or the quality of viewpoints presented?
