Anoxia Hypoxia - The Brain Clinic Anoxia/Hypoxia

Anatomy. A gyrus is a ridge-like elevation found on the surface of the cerebral cortex. Gyri are surrounded by depressions known as sulci, and together they form the iconic folded surface of the brain. Gyri are made up of the gray matter of the cerebral cortex, which mainly consists of nerve cell bodies and dendrites. The size and layout of gyri vary from person to person, although there are ...
