In short, philosophers themselves, and medical men, even when it is their purpose to discourse about the mind, do in every instance inscribe on their title-page 91 and table of contents, 92 "De Anima" ("A treatise on the soul"). And that you may also have God's voucher on the subject, it is the soul which He addresses; it is the soul which He exhorts and counsels, to turn the mind and intellect to Him.

### **A Treatise on the Soul. 1 - Tertullian**

Aristotle on the Soul Matter and Form Aristotle uses his familiar matter/form distinction to answer the question "What is soul?" At the beginning of De Anima II.1, he says that there are three sorts of substance: a. Matter (which is a dunamis: potentiality) b. Form (which is an entelecheia: actuality) c. The compound of matter and form

### **On the Soul Summary - eNotes.com**

Or, if you have long had certain puzzles in the De Anima, look them up here. The Commentary is designed for scholars of Aristotle, but I divided it so that it can be useful also to beginning readers. The main part aims at clear assertions that should be helpful to anyone at each line. The endnotes are only for a specialist.

### **Aristotle on the Soul**

Democritus roundly identifies soul and mind, for he identifies what appears with what is true-that is why he commends Homer for the phrase 'Hector lay with thought distraught'; he does not employ mind as a special faculty dealing with truth, but identifies soul and mind.

### **Amazon.com: de Anima (8601417767832): Aristotle, R. D ...**

The De Anima, like all of Aristotle's great works, contains both Aristotle's legitimate contributions and the paths by which his followers led Western culture astray. Unlike many of his predecessors, Aristotle firmly grounds his account of the human soul within that of all life.

### **ARISTOTLE, On the Soul | Loeb Classical Library**

The soul is the cause or source of the living body. The terms cause and source have many senses. But the soul is the cause of its body alike in all three senses which we explicitly recognize. It is (a) the source or origin of movement, it is (b) the end, it is (c) the essence of the whole living body.

### **Aristotle's Theory of Soul**

In De Anima, he sought to set out his theory of the soul as the ultimate reality of embodied form and produced both a masterpiece of philosophical insight and a psychology of perennially

fascinating subtlety.

### **De Anima On The Soul**

On the Soul. On the Soul ( Greek περί ψυχῆς, Peri Psychēs; Latin De Anima) is a major treatise written by Aristotle c. 350 BC. Although its topic is the soul, it is not about spirituality but rather a work in what might best be described as biopsychology, a description of the subject of psychology within a biological framework.

### **On the Soul | work by Aristotle | Britannica**

Peter tackles the De Anima ("On the Soul"), focusing on the definition of soul as the form of the body and Aristotle's theory of sensation.

### **On the Soul - Wikipedia**

About De Anima (On the Soul) For the Pre-Socratic philosophers the soul was the source of movement and sensation, while for Plato it was the seat of being, metaphysically distinct from the body that it was forced temporarily to inhabit.

### **The Internet Classics Archive | On the Soul by Aristotle**

Aristotle's On the Soul exists as his personal discourse on what the soul truly is. He begins the text stating that "knowledge of any kind is a thing to be honoured and prized."

### **42 - Soul Power: Aristotle's De Anima | History of ...**

The De Anima is a discussion of the main problems connected with the soul or vital principle of living things: what it is, how it is related to the body, and how it functions. The approach is more metaphysical and the treatment more abstract than might have been expected from a biologist; indeed Aristotle does not seem to have contributed much to the subject from his own observation.

### **Aristotle, On the Soul (de anima) - Web Server: faculty**

Aristotle on the Soul (Book 2, Chapter 1 of De Anima) Hence, the soul must be a substance in the sense of the form of a natural body having life potentially within it. As substance is actuality, soul is the actuality (entelecheia) of a body, that in virtue of which it is the kind of the body that it is.
