Like the electric field, the magnetic field is a Vector, having both direction and magnitude We denote the magnetic field with the symbol  $B$  r The unit for the magnetic field is the tesla  $1\text{tesla} = 1\text{T} = 1\text{N} / \text{A}\cdot\text{m}$  There is another unit that is also used and that is the gauss  $1\text{ gauss} \dots$
