Object-relations theory Freud developed psychoanalysis by observing only adults, not children. Then, the Object- relations people did a massive study of children.

General Psychology 101 Final Exam

Psychology 101 Final Exam. states that pain signals traveling from the body to the brain must go through a gate in the spinal cord. If the gate is closed, pain signals can't reach the brain. The gate isn't a physical structure like a fence gate, but rather a pattern of neural activity that either stops pain signals or allows them to pass.
