Groundwork of the Metaphysics of Morals is the first of Immanuel Kant's mature works on moral philosophy and remains one of the most influential in the field. Kant conceives his investigation as a work of foundational ethics—one that clears the ground for future research by explaining the core concepts and principles of moral theory and showing that they are normative for rational agents. Kant aspires to nothing less than this: to lay bare the fundamental principle of morality and show ...

### **The Fundamentals - Practical Metaphysics**

First published in German in 1983 as volume 29/30 of Heidegger's collected works, *The Fundamental Concepts of Metaphysics* presents an extended treatment of the history of metaphysics and an elaboration of a philosophy of life and nature. Heidegger's concepts of organism, animal behavior, and environment are uniquely developed and defined with intensity.
