application. To open prior version of Siebel Open UI application, you must have Internet Explorer installed in your system. But as per latest browser trends (Nov 2014-Nov 2015) done by StatCounter , Google Chrome has the largest market share (almost 50%) followed by IE and Firefox.

## **About Siebel Open UI - Oracle**

Siebel Open UI uses objects to deploy each element that it displays in the client. You can customize each of these objects in a way that is similar to how you customize each object in a high-interactivity client. You can customize each object separately. Each object resides in a layer that implements a particular area of customization.
