have made a remarkable first step in changing physics pedagogy for the better: 1) They cover all topics of physics (including modern physics) in 31 chapters, more easily coverable in 2 semesters. To accomplish this, they removed some utilitarian aspects found in more traditional texts. I think Einstein would have liked this.

Solutions Manual

the Earth with the  
density of the granite.  
Therefore, the density  
of Earth is times the  
density of granite.  
Thus, the average  
density of the Earth is  
greater than the  
densities of the typical  
surface rocks.
