The Distributive Property is easy to remember, if you recall that "multiplication distributes over addition". Formally, they write this property as " $a(b + c) = ab + ac$ ". In numbers, this means, for example, that $2(3 + 4) = 2 \times 3 + 2 \times 4$. Any time they refer in a problem to using the Distributive Property, they want you to take something through the parentheses (or factor something out); any time a ...

SMP 11-16: numbers and counting - number notation for 2 people

The SMP11 is a precision sample-and-hold amplifier that provides the high accuracy, the low droop rate and the fast acquisition time required in data acquisition and signal processing systems. The device is essentially a non-inverting unity gain circuit consisting of two very high input impedance buffer amplifiers connected together by a diode bridge.
