That is compassionate presence. That is often the best and most healing gift we can give. We believe Nouwen's words are so profound when he says: But what really counts is that in moments of pain and suffering someone stays with us. More important than any particular action or word of advice is the simple presence of someone who cares.

### **The Presence of Compassion in Therapy | SpringerLink**

Nearly 10 years ago, in his Greater Good article "The Compassionate Instinct," Greater Good Science Center co-founder Dacher Keltner summarized the emerging findings from this new science of human goodness, proposing that compassion is "an evolved part of human nature, rooted in our brain and biology." Research since then—from neuroscience, evolutionary psychology, behavioral health ...

Most people experience a nonverbal, coma-like state before death, yet all too often medical workers, even hospice workers and family, withdraw attentive presence when a patient enters silence. Perhaps we wonder if they know we are there. Perhaps we are uncomfortable. In this workshop we will discuss what work and res
